According to the New York Times, "It has been calculated that with the new bill, and on the assumption that not more than 5 per cent of the employable population will be unemployed on the average, the British government will be taking about 24 per cent of the gross income of individuals in compulsory contribu-

though our government must have had some warning of impending disaster long before the general public was allowed to have any information whatsoever. What is the explanation? However, I feel confident that the great majority of the American people would be willing to some the confidence that they were the confidence that they will render a just and proper verdict next November. can people would be willing to go back to food rationing, if only temporarily, in order to avert a fearful famine overseas.

Bradford vs. Tobin At a meeting of a so-called non-political organization last Sunday evening I received some very illuminating information. I learn-ed from a Democrat of considerable influence in state politics that the gubernatorial campaign, at least from the Democratic standpoint, is going to be ex-tremely personal and dirty. Of course, that is not the way the gentleman described it, but that is the fact.

Here is the dope. The Tobin forces, though not, of course, the chief executive personally, will move Heaven and earth to try to dig up some personal or business that she was coming soon. He left immediately for New York, arriving 16 days too early. Others have gone to meet their wives without enough money to or political scandal which they if you wake up some morning and learn that he is supposed to be in serious trouble, just like be in serious trouble, just like the distinguished James Michael Curley. Do NOT be surprised to helped them in orientation courses long before they left home, Miss Knight said, and offered learn that he is supposed to be nothing but a glorified office-boy for a prominent insurance com-pany; also, that his record as the assistance of the Newton Chapter in family problems if it is needed. That would seem to be the fault of the offender against the law rather than the fault of the D. A.'s of-

All in all, Robert F. Bradford will be pictured as a rather unimportant youngster who happens to have been born with a fine name, just like Calvin Coolidge and Leverett Saltonstall. All his talents will be played down and he will be eacused of having quite a few attributes which the vast majority of thinking people will instinctively know he cannot possibly have. On top of all that, you will be told that his health is very, very poor and that he could not possibly stagger through even two years of a gubernatorial term. The cold, hard facts of the matter are that Bob Bradford is one of the huskiest young men ever to hold high public office in this state, As a trained at hele to the facts of the matter are that Bob Bradford is one of the huskiest young men ever to hold high public office in this state, As a trained at hele to his college days, he understands the importance of taking care of himself. A Message to Mr. and Mrs. Citizen The Newton League of Women Voters

ALLOCATION OF STARVATION

After the war Canada and Britain, if you remember, tight-ened their food restrictions. Clement Attlee even offered to impose bread rationing provided the United States did the same. He made an offer which Britain, throughout its trying years of rationing and shortages, had never imposed upon its people. What preceded this offer was an American suggestion that the British

pull in their belts another notch.

What is happening in our country? The Washington Post conducted a survey on voluntary rationing, which was urged by President Truman by way of our Secretary of Agriculture, and these are the results: only 17 per cent of the families are eating less bread; about 10 per cent are saving fat; our present tee cream consumption tops all records, ice cream which could be used for evaporated milk to save children. What Herbert Hoover called a 90-day food crisis is now recognized as a twoyear crisis.

We are already 300,000 bushels short of our promised grain shipments through UNRRA, and the grim job facing the Combined Food Board is where to allocate the food which will mean life for some and starvation for others. For instance, the Japanese are now at the point where they are collecting leaves, acorns and seaweed. In China people are eating grass and dying of starvation. Famine stalks in India and soon the statistics about the millions of dead will be relayed to us. In Europe there will not be the mass deaths as in the other areas but hunger and malnutrition will take off the old, and rickets will account for the younger children. What price victory when 20 million children in Europe need food, our consumption of bread is 15 per cent higher than in 1945, and waste in any American city in any one day would feed a European city for

saved from starvation. Signifi cantly coming on Mother's Day obtained for shipment to Catholic relief agencies in foreign countries. Although UNRRA is con-

ducting a similar and simultaneous canned food drive, it was pointed out that the Catholic parishes campaign is entirely separate and wholly dependent upon its own collections.

All types of canned foods are being urgently solicited, particularly evaporated and condensed milk, powdered milk, milk formu-la for infants, chocolate milk powders, cocoa, fruit juices, and strained or chopped fruits or veg strained or enopped fruits or vege-etables. Housewives in local parishes are asked to check their pantry shelves for whatever canned goods they may be able to spare and to bring them to their local canned food commit-tee which each parish is now ap-pointing.

rances Malet, Newtonville artist whose decorative portrait of a girl reading is pictured above, has had a long career as a portraitist and water colorist. She studied for many years in Boston at the Mass. School of Art, and at the Boston art schools. Meeting Suzanne Miller, the great muralist, she received valuable instruction in organization and structure and was inspired by her to go to Paris to study with Despujol, head of the dept. of painting at Fontainbleau. After studying at Fontainbleau, she returned to Paris to study with Despujol in his atelier in the Mont-A year later she returned to Paris where she studied at the Ecole du Louvre, majoring in the history of painting and French painting. Returning to this country she painted several large portraits and decorative paintings, some of which are in Boston schools. She exhibited in the Paris salons and in group exhibitions in many Boston galleries. The above painting, a decorative portrait which was exhibited in a Boston gallery, is now in a private col-lection. Miss Malet specializes in pastel and charcoal portraits of children and adults.

Mr. Donald Gilmore, advertising manager of the Dennison Manufacturing Company in Framingham, addressed the members of the Newton Rotary Club at their meeting on Friday, April 26, at the Brae Burn Country Club. Mr. Gilmore stated that in view

of the nature of his audience, which were business men confined mostly to a local trading area, he would not go into the broader problems of maintaining extensive public relations for like concerns who do a state or inter-state business, but yould confine his remarks specifically to "Building a Business Personality."
This business personality could be developed in a local trading area to the advantage of the business man who selects a desirable theme for his medium by which he can portray his personality. Mr. Gilmore brought out that a retailer, for example, could express his personality as ing a Business Personafity." could express his personality as he wished it expressed, by ap-propriate personal dress in his store and even in the local community. He could further carry this out by his window displays. Another means of building up a business personality would be in store signs similar to some of the Auburndale Review

terest in social welfare, Mrs. Nathan prepared herself for a career in social service and studied at the Simmons College School of Social Work of which she is a graduate. Following graduation, she became a case worker for the Jewish Family Welfare Association, serving in the West End District Service office.

Mrs. Nathan has worked for the Combined Jewish Appeal campaign for a number of years in various capacities. She started in as a solicitor for the New ton Women's Division and advanced to co-chairman and finally chairman. She held the latter position for three years. During the 50th anniversary campaign last year she served as Newton Women's Division

as Newton women's Division adviser.

Besides her participation in the Combined Jewish Appeal campaigns, Mrs. Nathan has been active as a board member of several AJP affiliates, including Ment House and Camp. ing Hecht House and Camp Country Week. She is vice president of the Temple Israel Sisterhood and on the board of the Beth Israel Hospital's Wo-

men's Auxiliary.

Mr. Nathan himself is widely known in communal circles for his services with the AJP and the Combined Jewish Appeal. He has been active in both organizations for many years. During the 1943-44 drives he was chair-man of the Districts Division and last year served as its cochairman

We're not suggesting that you pitch a teepee on our doorstep. But we know how much you, like so many other car owners, want B. F. Goodrich Silvertowns on your car, and we know why. Because you have heard that:

 The new, better synthetic rubber developed by B. F. Goodrich makes Silvertowns run cooler, wear longer than prewar tires. The 35% stronger tire body is made possible by a new, stronger cord, more cords per inch in the top ply, and an extra shock-absorbing breaker strip.

The new wider, flatter "road level" tread puts more rubber on the road to share the wear and provide quicker stops, better traction, and more safety on the turns.

4. More than 2,000 tests and 17,000,000 miles of the toughest kind of actual road service developed that the new B. F. Goodrich Silvertown outwears prewar natural rubber tires.

Dining With Jane and Bill

Bill-Come to the window, Jane! Mac's peas must be up

Jane—Why, so they are! We'd better get busy about our garden, don't you think?

Junior-Let's grow something we never grew before, Daddy.

Jane—Well, that's an idea! Let's see, is there anything we have never grown before? How about some kale, Bill?

Bill—Why kale?

Jane—Oh, for several reasons. Don't you remember when we were in Virginia last year what wonderful kale your sister had? It was delicious. Besides it's the very best "green" there is nutritionally; ... higher in minerals and vitamins than all the others, and it doesn't take up much room in a garden. Junior—I know a kid at school who grew some last year and it was awful.

and it was awful. Jane-Probably that was because he picked it when it was

the young leaves. They were tender and sweet.

Bill—I'm willing to try a little. I do admit that Mary's was darn good. In fact, I guess she usel some of the tender green leaves in one of her famous salad bowls. We haven't got too much land so we better plan pretty carefully what we want

Jane-We certainly couldn't get along without tomatoes and

Bill—Say, that reminds me; got a little nutrition data myself! I read that studies at the U. S. Vegetable Breeding Laboratory at Charleston, S. C., showed that different varieties of tomatoes grown side by side in the same soil showed great differences in vitamin content. Those Rutgers you liked were right near the top. Bonny Best variety that we also thought were good were one of the poorest.

Were good were one of the poorest.
 Jane—Well, we'll just get some Rutgers from the greenhouse. And don't forget to get a half dozen pepper plants!
 Bill—O.K. I'll start the list with kale, tomatoes, and peppers. We'll finish planning after dinner. I'm starved. Let's eat.

dispose of the accumulation of newspapers, magazines and rubbish that have been pilling up all winter.

The newspapers and magazines will gladly be collected by several agencies among which is the new Sea Scout Ship number 12 (BIG. 8196). This ship will greatly appreciate your donations. The rubbish should be cleaned up and placed in containers then set aside for collection by the Highway department. Please try to keep the burnable materials separated from the non-burnable materials. Materials that burn are taken to the city dimns. The unprecedented demand for telephone service continues abated, and as a result of new requests since the first of the year, 85,000 persons are now waiting for service in Maine. New Hampshire, Vermont, Mass. and Rhode Island, as compared with 100,000 waiting applications as of January first.

the other materials are taken to one of the city dumps.

Homes with oil storage in the basement should keep all exposed sides of the tank clear of rubbish by at least 3 feet. This will enable you to readily detect any oil leaks. Work to stop the leak can also be started with the least possible delay. A container of sand should be kept handy so that the sand could be used to form a dike and prevent the leaking oil from spreading. Permits for the storage of oil are required by state law and should be posted at or near the oil storage container.

Never leave or store any range oil or other inflammable substance on stairs or in a hallway that leads to an exit.

Remove all inflammable materials from under stairs and on stairways. Should a fire start there it may cut off your only means of escape. The fire may also spread to the floor above faster. The stepping-up installation program is made possible by increased supplies of telephone instruments and by the return to their jobs of many skilled telephone men from the armed forces. Men have been at work over week ends and holidays to install telephone instruments as rapidly as they are received. Q. My son received his dis-charge from service on Feb-ruary 20. Do I get the allotment for the month of February? M.W., Wareham.

If you have been receiving allowance from your son, whereby he contributed an amount and the Government add ed an allowance, you are entitled to a check in March to cover payment for February. If you received a Class E allotment, an amount entirely from the soldier's pay, you would receive pay-ment for February only if the soldier had sufficient pay due him at time of discharge to cover allotment.

Here's Help for the Housing Shortage

Because of a newly developed asphalted-gypsum core, the new water and weather-resistant U.S.G. Sheathing "weathers all weather" — piled unprotected on the job or nailed to the framework. An average small house is sheathed in eight man hours — speeding construction and saving lumber.

CHICAGO, ILL. — A new sheathing with a recently developed asphalted,gypsum, weather-resistant core is one of the new answers to the lumber shortage.

Designed to free more lumber for framing and to extend available materials to more new housing units, the new sheathing, produced by the United States Gypsum Company, can be installed on an average small house in eight man hours.

Tests under adverse conditions rose the new product materially superior in resisting the damaging effects of weather — piled on the job or nailed to framework. There is also no buckling, no warping, no opening up of joints when it dries out.

when it dries out.

After a giant test "weatherometer" shot a driving spray of water against panels of wall sheathings of different types—simulating the equivalent of 5½ years of average rainfall—the U.S.G. Sheathing showed a water absorption of 3.4% by weight. This was actually only 1/12th of the amount absorbed by wood sheathing during the same exposure.

osure.
Sheathing costs can be cut from 1/2 to 1/2 because of handling ease.
The new sheathing does not need special measuring and sawing—it can be scored and snapped right on the stids.

HOW Veteran "X" saves-\$2,000 in Mortgage Interests

The other day, a young veteran came in to ask us about arranging a loan to buy a \$10,000 house. "Under the G. I. Bill," he said, "that means no money down, twenty years to pay, doesn't it?"

"That's right!" we said. "You can buy it that way, thanks to the government. But-let's talk things over a bit! Maybe you can make even better

He'd never thought of that! Imagine his delight when he found he could save \$2,000 in interest, five and a half years in time, by investing \$2,000 of his own money. He still takes advantage of the low-interest rate guaranteed by the G. I. Bill-but he'll own his own house free and clear sooner, and

For veteran and non-veteran alike, we have many flexible mortgage plans-suited to your particular home financing needs. Many are explained in our new booklet, "A Friendly Chat About Mortgages". Why not send for it (without obligation, of course) today!

Spokesmen for the AVC point ed out that the present action of the group called for the appoint-ment of a committee to be com-posed of veterans and civic leaders who would work together to an early alleviation of housing difficulties both for veterans and other citizens. Their resolution also proposes that the further sale of land to which the city holds tax title be suspended un-til such time as sales of that land may be arranged to those wish and will covenant to

On the stand of AVC with regard to assessment for taxation purposes on new construction, the Mayor and Chairman of the Board of Assessors are in sympathy and have indicated that there is no inclination on the part of the city to profit from the present extensive increase in building cost when new homes' are assessed by the city. The Mayor expressed the intention of referring the AVC's resolu-

The Veterans Want To Rent

The picture of veterans' housing needs is being distorted by over-emphasis on their desire to build new homes. The truth of the matter is that a very large number of veterans want to rent. Many of them are not yet settled in their minds as to where they want to settle permanently. Many of them do not know, as yet, where their business or their jobs may dietate they shall live. Hence they want to rent.

Many of them want to rent apartments, but is is not easy for builders to get the materials with which to build them. Many want to rent small houses, and this fact would seem to call for encouragement of widespread speculative building. Many who really do want to build can better afford to live where they are for a time and build later when conditions are more favorable.

The housing of veterans and their families is going to loom large in the real estate, building and mortgaging economy of the country for many years to come. It is only common sense that we get a true perspective on the problem and all its ramifications, for the good of the veterans themselves.

The Coal Strike

Let us hope that President Truman will have ordered the seizure of the coal mines by the time this column is being read. It is high time that drastic action should be taken. Many of us are wondering just why it has a large wondering which was a large which was a large wondering which was a large wondering which was a large whi taken the White House so long to decide that the coal strike IS a national disaster. With creeping business paralysis slowly settling down on the entire country, it would seem that both the President and Congress should swing into action.

Many are wondering just what will happen, in the event of government seizure, in case the miners refuse to work for the government. Of course, when similiar situations occurred after the war was over, workers were willing to resume operations. It is a should give his opinion on a case before a verdict is rendered." (It is only fair to point out, however, it only fair to point out, however, that it was Coolidge's vote in the state Senate a year ago which killed the 1945 bill.) The other reason for the Cole candidacy is supposed to be that it is better strategy NOT to have an all-metropolitan Boston ticket. I realize that Coolidge lives in Reading, but he has a law offlice in Boston and many people think of him as a strictly local man. Then, too, there are many who taken the White House so long should give his opinion on a case

It seems that the same day that the Newton High Baseball Club got one good break, Lufti Gazagian, ace outfielder becoming eligible, a bit of "bad" news was received. At a game last Tuesday, May 7, at Cambridge, Whitey Weinstock, first string catcher, broke his ankle by taking too long a lead of second base and then being forced to slide back to the base. However, Blix Donnelly, sub-catcher was rushed into the game and did a beautiful job from behind home plate. It was nothing short of lack that Blix was dressed for the game as he did not dress for the Arling-ton game due to a hand injury. When several of the pitchers were asked how they felt about Blix doing the catching, they replied that he was a very fine catcher, but still he wasn't Whitey. Well, from what yours truly has observed of Donnelly I feel that he will do as good a job as Whitey, but then again he still isn't Whitey.

Educators Speak at Council of P.T.A. **Annual Meeting**

Mrs. Mary Alice Mitchell, Director of Elementary Education in the Newton Schools, and Mr. Raymond W. Blaisdell, Principal of the Weeks Junior High School spoke on the problem of develop-ing social responsibility in our children at the annual meeting of the Newton Council of Parent. Teacher Associations in Newton High School on Monday evening, May 6. The program was in charge of Dr. Wilfred S. Lake,

Chairman of the Council's Committee on Social Responsibility.

The most important job that parents and teachers have. Mrs. parents and teachers have, Mrs.
Mitchell declared, is the development of social responsibilities. In
the elementary schools of Newton the social study program is
planned specifically to work toward this end. As objectives of
the social studies Mrs. Mitchell
mentioned the development of

The achievement of these aims can only be realized, Mrs. Mitchell

stressed, by giving the children opportunities for different kinds of practical experience in of practical experience in demo-cratic behaviour. She mentioned several problems which children in elementary schools in Newton have, this past year, been asked to take an active part in solv-ing: the questions of bicycle parking, of when and where to throw snowballs, of the disposal of candy and gum papers, and of behaviour suitable for buses and public places.

The growth of social conscious-

ness, Mrs. Mitchell emphatically stated, is a long, slow process, starting in the kindergarten, conthrough all years and on into adult life. In the elementary schools it can only be begun with the study of the child's local environement in the early grades, branching out into a study of his nation yesterday and today, then into a study of the complex culture of the western hemisphere, and ultimately into a study of the world.

Robert Katz to Star In Local Show

On Monday May 13, Boston Stock Company will present "Her Highness and the Butler" at Brat-tle Theatre, Cambridge, starring Robert Warren Katz. Mr. Katz, who has played character parts with outstanding success on prac-tically every professional Boston stage is well known in Newton where he resides. Among his di-

verse accomplishments he holds degree of LLB, is a famous Master Locksmith and has tensive realty interests here. He is a licensed auctioneer.

About 5 years ago an actor rehearsing the character lead in Paradise Lost became temperamental and was dismissed, whereupon through a fluke. Katz was asked to take the part. He made such a success of it that he was singled out by all Boston critics and thereafter became in great demand for his handling of comedy. In rapid succession he has since played here with Lionel Stander, Elissa Landi and many other prominent stars and appeared in "Thunder Rock,"
"Rocket to the Moon," "Marco Millions," "Slight Case of Mur-der" and dozens of others. Often his services would be needed to pick a difficult lock in an emer-gency and 8 p: m. would find him with his wires and picklocks working away at a vault and at 8:30 he would be on stage throw-ing lines and eliciting bellylaughs from the audience. He has turned down several Broadway offers, preferring to remain near his other interests which include his beautiful wife (the former Isable Kahn.) and their 3 sons.

Since practically all professional plays that come to Boston are the Boston Stock Co., which is the only professional Stock Com-At pany operating in America to day. Here he has scored success after success, in "Over 21," "The Barrets," "Philadelphia Story," "East Lynne," "This Thing Called Love," and many others. This week the Boston Stock Company now in its 79th week, is present-ing the delightful Russian Comedy, "Squaring the Circle," which treats of the housing shortage.

NEWTON FIRE DEPARTMENT FIRE PREVENTION SERVICE

In recent weeks there have been several calls for fires in oil burners. In some cases the occupant of the house could not show a permit for the storage of the oil. Some of the oil burner installations lacked parts of the regular requirements. People in instalations acked parts of the regular requirements. Feeple in some places claimed they never knew that a permit was required. The law requiring a permit for the storage of oil is as follows: Mass. General Laws, Chapter 148, Section 23. No volatile infiamable fluid except an amount not exceeding one quart contained in an approved safety can and non-volatile inflammable fluid except an amount not exceeding ten gallons for domestic use shall be kept, used or stored in any part of any building used for habi-tation, and no volatile inflammable fluid in quantity exceeding one gallon contained in an approved safety can, and no non-volatile gamor contained in an approved safety can, and no non-volatile inflammable fluid in quantity exceeding thirty gallons, shall be kept, used or stored, except in the tank of an automobile, motor boat or stationary engine, within fifty feet of any building used for habitation, unless a permit has first been obtained therefor from the head of the fire department under such terms and conditions as he may prescribe.

from the head of the fire department under such terms and conditions as he may prescribe.

If you cannot locate your permit or if you have never had a permit for the storage of oil for either a range oil burner, space heater for a room or for your power oil burner for heating your home, please apply for an 'Application for a Permit' at either Fire Department Headquarters or your local fire station. Fill in the application and enclose a self-addressed, stamped envelope with it and mail it to the Newton Fire Department, 1164 Centre Street, Newton Centre. The self-addressed envelope is to return Street, Newton Centre. The self-addressed envelope is to return

We Are Ready To Help

Starvation abroad! No one wants to see it, even in enemy countries, and everyone wants to do his and her utmost to help. We are all ready to make sacrifices that the hungry may be fed. All that we ask is that what we go without shall be so intelligently and promptly handled that it will arrive in time at the points where it is needed.

This is no time for red tape or quibbling, but it is time for us in this country to get a clear, unbiased picture of the condi-tions we are asked to alleviate, of the means to be employed, and of the results obtained. That is our right. We are all

Politics With Color

(The opinions expressed in this column are the writer's own, and do not necessarily reflect the views or policy of this newspaper .- Editor's Note)

Our good friend and neighbor, Bill Cunningham, does not pretend to be an expert on matters.

It has recently been compared to the compared to political, but he certainly hit the bulls-eye last Sunday in his pung-ent column on former Governor Harold Stassen of Minnesota. Just in case a number of my readers may have missed Bill's analysis, topping off a most in-teresting sketch of Stassen's ca-reer, let me say that he gave feer, let me say that he gave four excellent reasons why the Minnesota statesman may be disappointed in his quest of the Republican nomination for the Presidency in 1948. Because these four reasons constitute the bulk of the arguments which are sure to be used against him dur-ing the next two years, I repeat them today.

them today.

No. 1—A large percentage of
the Wendell Wilkie following
will be either apathetic, if not
actually hostile to the Stassen
candidacy. Insiders state that
Wilkie himself, even when he was close to death, found it hard to forgive Stassen and those backing him for his intrusion into the 1944 campaign. Looking Price; treasurer, Mrs. Richmond Seabury; hospitality, Mrs. Howard Lewis; sewing, Mrs. Roger backward, it does seem as tho' Stassen put a seriqus crimp in Willkie's aspirations by chal-lenging him in the Wisconsin primaries. The meeting concluded with a Later on, for reasons winch were never too convincing, at least to seasoned Republican politicians, Senator Ball bolted Gov. Thomas E. Dewey, the G. O. P. nominee and declared himself for Frank and declared nimes! To Franchin Delano Roosevelt. For that grievous offense, the Minnesota gentleman is frequently referred to as "the politically-late Senator Ball". The point is that Ball is so unpopular right now that his friendship with Stassen may merely mean the "kiss of death"

No. 3—Stassen has declined to run against Senator Shipstead of Minnesota, whom many of the experts feel sure he could deexperts feel sure he could de-feat. Shipstead is old and slip-ping fast, like our own David I. Walsh, Senior Senator from Massachusetts. If our own Henry Cabot Lodge could finally deside to challenge our veteran Senior Senator, Hon. David I. Walsh, cynical Republicans throughout the country want to know, (and quite properly, it seems to me) just why Stassen has not shown the same courage and run against Senator Shipstead.

No. 4—Stassen has taken the field too early in the game. He

The Gabernatorial Axe

It has recently been called to my attention, the it was still in my sub-conscious mind, that Gov. Tobin, at the time he first took office, announced with due solominity and apparent sincerity that he did not propose to mismiss any efficient and faithful public servant without due cause.

Well, well and again well! One of the first bad miscues on the Governor's part was the firing, entirely without justification, of our own Julius Warren, former Superintendent of Schools. The mere fact that he may have been indirectly kicked upstairs, without the help of our Chief Executive, is neither here nor there. their time and study political trends throughout the country.

mere fact that he may have been indirectly kicked upstairs, without the help of our Chief Executive, is neither here nor there. The point is simply this: here was a typical career man with a spotless record, apart from the sad fact that he was a Republician officeholder in the Democratic regime of Gov. Tobin. So the axe was swung and another high-grade public servant left the service of the state. We will skip the Herman McDonald flasco, as that has previously been discussed here. That was like wise somewhat brutal, to put it mildly, even the' Dan Lyne did step down from the heights of the Bar Association in order to lend a sort of dignity to the ridiculous proceedings.

We will also omit, for the time being, any discussion of General Keville's dismissal as Adjutant General, partly because his advancing age may seem to some indepth of the sone and solve the solve of the sufficient grounds for the say include the provided solve the provided solve the solve of the sufficient grounds for the sufficient groun keville's dismissal as Adjutant General, partly because his advancing age may seem to some impartial observers to be sufficient grounds for the swinging of the State House axe.

SAVE FOR A SUNNY DAY!

Are you one who takes a gloomy view of saving - thinks of it only as protection against a "rainy day"? It's that, too, of course-but a savings bank book can be a nice, cheerful thing to have around a house,

Look into yours! See how the balance is mounting week by week, month by month, year by year! Think what it can mean - the down-payment on that home you dream of, a new car, travel, better education for the children! Pleasant thoughts, all of them, aren't they?

"BUT I HAVEN'T GOT A SAVINGS BANK PASSBOOK!"

Don't say that! Instead, why not come in today and open a savings account? Deposit regularly and soon you, too, will have that "little extra" that makes the difference between living-and just existing! Begin saving now for a future of sunny days!

Worn Out Mattresses **Wear Out Nerves**

A recent syndicated newspaper story quoted Dr. John P. Wood Orthopedic Surgeon and president-elect of the American Orthopedic Association, as saying, "Worn out mattresses and springs wear out nerves and are the indirect cause of many ailments. A sagging mattress tends to throw the body out of line. When this physical dis-order occurs, the relationship of joints is altered, which in turn affects the nerve and blood supply to the various organs. In commenting on this article,

Edward Rose, president of the Rose-Derry Company of Newton, Massachusetts, points out that this has long remained obscure in the minds of the public. "Many orthopedic devices have been offered which only at best could serve as a substitute for a mattress of a firm, level design, said Mr. Rose in a recent interview. OUTWEARS PREWAR TIRES!

We're not suggesting that you pitch a teepee on our doorstep. But we know how much you, like so many other car owners, want B. F. Goodrich Silvetrowns on your car, and we know why. Because you have heard that:

The new, better synthetic rubber developed by B. F. Goodrich makes Silvertowns run cooler, wear longer than prewar tires.

2. The 35% stronger tire body is made possible by a new, stronger cord, more cords per inch in the top ply, and an extra shock-absorbing breaker strip.

The new wider, flatter "road level" tread puts more rubber on the road to share the wear and provide quicker stops, better traction, and more safety on the turns.

 More than 2,000 tests and 17,000,000 miles of the toughest kind of actual road service developed that the new B. F. Goodrich Silvertown out-wears prewar natural rubber tires. Come in and see this new tire

THE FIRST CHURCH OF CHRIST, SCIENTIST

"Henceforth know we no man after the flesh: yea, though we have known Christ after the flesh, yet now henceforth know we Him no more." This passage from the Bible (II Corinthians 5:16) comprises the Golden Text which will be read in The Mother Church, The First Church of Christ, Scientist, in Boston, and May 19.

The subject of the Lesson-Sermon will be "Mortals and Immortals," and included in the Bible selections will be: "Know

ed in the Lesson-Sermon: mortal man was and is image or idea, even the infinite expression of infinite Mind, and immortal man is coexistent and coeternal with that Mind. . . The spiritual man's consciousness and individuality are reflections of God" (p. 336).

#### **Newton Banks to Close Saturdays During Summer**

In line with the decision of the panks in Boston and many outlying towns, to close all day Saturday during the summer months the Newton Bankers' Association announces that a similar program will be adopted by the Newton banks.

At a recent meeting, the mempers of the Association voted manimously to close Saturdays the Rev. J. Edgar Park, D.D., during the months of June, July, August and September. Before this vote was taken, several of the member banks conducted an opinion poll of their Saturday morning customers. The result was overwhelmingly in favor of

Saturday closing.

The following banks are members of the Newton Bankers' Association, Newton National Bank, Newton-Waltham Bank & Trust Company, Newton Centre Savings Bank, Newton Savings Bank, West Newton Savings Bank, Auburndale Cooperative Bank, Newton Cooperative Bank, Newton South Cooperative Bank, West Newton Cooperative Bank.

#### The Seeds of Revolution

No one knows when the demoralization caused by the present situation in the United States as the result of one-sided labor The money losses caused the workmen are inbut they are the least of the penalty we are paying for the inability of American citizens to settle their grievances without industrial warfare.

We are losing the respect of the world at a time when we should be an example of progress as the result of intelligent action on our own domestic problems.

The goal of the American labor movement today seems to be unbridled power. It is already a monopoly that can strangle a nation at will and defy the awards of duly appointed arbitra-tors, and thumb its nose at the government with impunity. Unless the people awaken and deal with this monopoly, the same as they have with industrial monopolies, and make them all bend their knee to laws and court, we will in a short time find ourself under as ruthless a dictatorship as did the German people

The seriousness of the present crisis is indicated by a brief news item which states that "delegates representing 80,000 CIO Federal, state and municipal employes met in Atlantic City and repealed their former declaration that 'it shall not be the policy of this organization to engage in strikes as a means of achieving

In the publicly expressed opinion of the late President Roosevelt, as well as President Truman, if workers can strike against government, there is no government.

#### A Tragic Error

Again it has been demonstrated that government management is a poor substitute for natural economic law. The magazine Fortune has published a comprehensive discussion of the food problem. Famine stalks much of the world. The United States has been counted upon to help prevent starvation for millions. It had promisel aid which tragic political tinkering with agricultural production will make impossible of fulfillment. With damning finality, Fortune declares: "The U. S. was short of wheat in a time of world famine because the United States government had deliberately planned for searcity. By manipulating price ceilings and subsidies, the government had made it more profitable for farmers to turn their grain into meat than to sell it for bread and other uses."

In view of the above situation, it is doubtful if Massachusetts can wield much influence in the current crisis. We can, however, write our newspapers and encourage them in their earnest efforts to stimulate Congress and the President to take action, and SOON.

Registration
HOW MAY I FIND OUT IF I AM A REGISTERED

Look for your name on voting list for 1944; or ask your Town or City Clerk or local election officials. (Voting list may be found in Election Dept. of any City or Town Hall.)

HOW MAY I BECOME A REGISTERED VOTER?

By appearing before the local board of registrars of voters, or election commissioners, and proving under oath that you have the necessary qualifications for voting. WHERE DO I REGISTER?

Either at City or Town Hall, or at a designated place in the wards. Ask your Town or City Clerk or local board of reg-istrars for information.

WHEN DO I REGISTER? Opening dates of registration are announced in advance and opening dates of registration are announced in advance and vary in different communities; registration closes throughout Massachusetts the 20th day before state primaries or elections. Ask your Town or City Clerk for information.

MUST I REGISTER EVERY YEAR?

No. Massachusetts registration is permanent and entitles you to vote in all elections. You need to register again in these three exercises.

There are also night and foundation creams and a special cream for sensitive skins which has has been found especially helpful in cases of acne. There is a freshly scented, invigorating liquid cleanser made from the whey of the milk, and there are

face powder and bath powder made from the dried milk. All these are perfumed with pure flower oils made from apple blossoms—as befits a product from a Connecticut farm—and there are co-ordinated rouge, lip-stick, perfume and cologne which, although they do not contain any part of the goats' milk, have been made up in the dermatologist's formulae to conform to her standards of purity. Beet juice is used as the coloring agent in the rouge, and that would interest our grandmothers who used to their cheeks with it artificial color was considered not quite nice. The lipsticks are colored with pure raspberry juice and they come in pink lady,

raspberry, and medium tones.

Besides apple blossom, the perfume and cologne come in heather, lilac, rose, and spring bouquet, and because only the purest essence is used they are long-lasting and effective.

Other items in the line include

a shampoo made from castile soap and castor oil, a sun tan leg paint for summer use, hand lo-tion, and shaving cream and lotion for men. The firm hopes later to put out baby oils and powders for allergic infants. In addition to being sold in-

dividually, some of the products come in sets for gift use, attrac-tively packaged with the golden goat as their emblem.

FIRE PREVENTION SERVICE

Each year the sounding of false fire alarms reap their toll of res, injuries to civilians and firemen and damaged property due some peoples preverted idea of fun or trying to be smart for

which the taxpayers have to pay.

There is no justification for any person over the age of 8 years old of normal intelligence in sounding a false fire alarm. There is nothing honorable in committing such an act. If there was, the persons who do it would not leave the fire alarm box lest they be apprehended. They are grossly misusing a public emergency service and should be brought to justice. Stop for a moment and realize what can happen due to sound-

Stop for a moment and realize what can happen due to sounding a false fire alarm. An alarm is sounded and at fire alarm they do not know what it is for, so the regular box assignment is dispatched. This usually consists of the Chief, Deputy Chief, three or four engine companies and one or two ladder companies. After dark the lighting plant is dispatched to all box alarms. While enroute to answer this alarm a motorist may become involved in an accident with a piece of fire apparatus, damaging both machines, valuable equipment and injuring people. This same piece of fire apparatus, if it were not damaged might have been the means of saving someone's life at the next real alarm. been the means of saving someone's life at the next real alarm.

been the means of saving someone's life at the next real alarm. While this assignment is answering this false fire alarm, another call comes in for a real emergency in the same area. Due to the fire apparatus in that section being out of quarters, apparatus from a greater distance has to be dispatched. This all takes time as even seconds count in saving a life. Death, injuries and a greater fire loss may result. Maybe this real call is for your home or that of a friend of yours. It would not be a very pleasant thought to cherish knowing that through your thought-lessness in sounding a false fire alarm you have brought a greater tragedy into someone's life.

respects in sounding a lase me alarm you are being a grant tragedy into someone's life.

Parents, taxpayers and citizens all of these false alarms are needless and are costly and you are paying for them, for the doctor and hospital bills, damage to property and mental suffering incurred. Through the combined efforts of all good law-abiding citizens this practice can be stopped. Talk it over with your now taken for this purpose. Having in mind the anticipated expansion in the real estate business and the constant demands of prospective builders and morgagees to have in their possession the original instrument of the home-owner this would be a great time saver. It will also prove particularly beneficial to our returning servicemen who

Mr. Clarence McDavitt, vice president of the Newton-Wellesley Hospital, gave much infor ing, the poor and the difficulties of operating such a huge institution under present conditions, at the Wednesday noon luncheon of the Newton Kiwanis Club, at the Y.M.C.A., this week.

The idea of having a hospital here originated one bitterly cold midnight, in the year 1881, when an elderly woman, her physician in attendance, required the services of someone to care for her in his absence. There were no nurses, of course, Mr. McDavitt said. She lived alone with no family to care for her, so that p.m. City Hall and Claffin School, Newtonville.

MOUNTAIN LAUREL AT ITS BEST

# Mountain Laurel

By Richard M. Wyman, Jr. Native to the Eastern States of North America, one of the most beautiful flowering shrubs of the State Teachers' College for a world, is the Mountain Laurel or Kalmia latifolia. The Kalmia was named after Peter Kalm, a Swedish botanist, who traveled exten. bers. These two young ladies is notanist, who traveled extensively through Eastern No. America between 1748 and 1751. The gardeners in the cooler parts of Eastern North America may envy those of the warmer climes their broad leaved evergreens, yet in this native Mountain Laurel we possess one plant that the coming year were nominated. envy those of the warmer climes

at all seasons, contrasting well with the red and yellow of its branches, leaves nothing to be desired. The exquisite symmetricity of the seasons of the sea cal beauty of a single blossom enthuses us to the completeness and wonder of Nature's handi-work. In mid-June the broad, dome-like clusters of bowl-shaped flowers, either pure white or very to deepest pink, mak wonderful picture. When mas in groups or used as a single specimen on the lawn it becomes a most effective and satisfying plant. The Laurel is worthy of

every home owner's thought and attention. In the matter of soil and situation of planting, the Laurel is not exacting. Preferring partially shaded places it will thrive very well in sunny spots. A leaf mold and an autumnal mulch will prove very beneficial. This plant fine acclimated plants, so that it is possible for the average New England home owner to trans-plant them readily and with safe-ty to their own home grounds.

### AVC Cooperates With Upper Falls Citizens Advisory Comm. in Survey

Members of the Newton Chapter of the American Veterans Mr. Shillington has returned Committee working for the New from Springfield where he has ton Citizens Advisory Commit- been attending the New Engtee addressed and mailed 5000 land Annual Conference of double postal cards on Saturday Methodist Churches this past and Sunday, May 18 and 19 to weekend. survey the housing situation among the veterans of this city. This action was taken by the Citizens Advisory Committee upon the recommendation of the upon the recommendation of the Community Council. Success of the survey, Roy S. Edwards, Chairman of the Citizens' Advisory Committee, says, will depend on the fullest possible return of these postal cards. The members of AVC are attempting to do everything possible in actual work and cooperation to further the public interest and assistance in housing relief; these AVC members are urging all their fellow Newton veterans to assist, if in no other way than to be sure to fill out the card which will reach them through

the mail.

The survey is being made by the Citizens' Advisory Committee, and the returns will be held in strict confidence and will not the co be available to anyone for com-mercial or other uses. The post-al card form covers the needs of each veteran completely, and the compiled results will show just what each veteran whose situa-tion is not satisfactory needs in the way of number of bedrooms and how much he feels able to pay for rent or ownership. The housing program also

aims to get greater available housing in this city by support-ing efforts to secure temporary waiving of zoning restrictions and waiving of zoning restrictors and building laws to admit extra apartments in Newton houses where such apartments could be arranged, to secure temporary housing from the Federal Governors. ernment for a five year period and to facilitate veteran buildand to facilitate veteral building by promoting the sale of city
land at reasonable rates to veterans. The Housing Committee
of AVC is strongly sympathetic
with the desires of Newton residents to preserve the fine residential character of the city, but believes that the present emergency (the extent of which is expected to be shown by the survey) requires some concessions and considerations on the part of Newton people in order to take care of their veterans during the next few critical years. Numbers of veterans who have been living in Newton all their lives, and who would prefer to stay in this city are buying and renting in neighboring and more distant areas where housing fa cilities have been made avail-ble because their home six has housing must be raised after a five year period, the AVC Com-mittee feels that changes in the City's restrictions could be made for a limited period. The exfor a limited period. The ex-ample of other cities in Eastern Massachusetts points the way for some action in Newton.

# A Proclamation

The President of the United States has stated that "more people face starvation and even actual death from want of food today than in any war year, and perhaps more than in all the war years combined."

than in all the war years combined."

It is because of this critical situation that the people of this country are asked to help prevent the possible mass starvation of so many people. I respectively call upon the citizens of Newton to cooperfood and cash contributions ate in the collection of canned for the purchase of food to be shipped overseas for free distribution to starving people. The collection will be conducted in our community from June 2nd to June 9th inclusive, and we need the help of all citizens in this most worthy undertaking.

Canada and Britain have intensified ther rationing, since war's end; save for sugar, we've dropped ours. Canada has exceeded many of her commitments to the United Nations Relief and Rehabilitation Administration (UNRRA). ain has stripped her food reserves below safety level to help

We promised UNRRA 300,000,000 pounds of meat in the first three months this year, but didn't deliver half that amount. We delivered only, half the 1,200,000 tons of wheat we had promises for the same period.

The main objective of the collection is to secure cash

gifts. More food can be obtained for a given amount of money if it can be bought centrally and in large quantities. Saving is also effected in pick-up, packing and transportation The secondary objective is to procure food packed

in tin cans. There is no better way, it seems to us, to obtain more food and dispatch it quckly to the areas of greatest need.

Think what it would mean if each family gave a substantial money gift, and, in addition, set aside a can of food a day for our afflicted neighbors — just for one month!

Scores of thousands in Europe and Asia appear certainly doomed. But we can save many other lives if we get behind the Emergency Food Collection and really push.

The maintenance of correct discipline does not reduce the pleasure but rather increases it because everyone can see and hear what is

When you go to the theatre or hall, notice the exits and how when you go to the theatre or han, notice the exits and how to get to them. Many accidents have resulted because people fail to notice that there were more than one exit. If you have to use one of these exits don't run and do not talk if possible, as some-

one of these exits don't run and do not talk if possible, as someone may be trying to direct you to another exit because the one that you are heading for may be cut off.

During the performance or motion picture act your age. Consider the rest of the audience. They also paid the price of admission and would like to hear as well as see the performance. If you must talk, do it before or after the show. Do not cause a commotion that will interrupt the proceedings and may be misinterpreted and cause trouble.

Do not light matches or flashlights so that they may be mistaken for a spark or fire. If you have lost anything at your seat inform the usher.

Do not ingli matches of lashinghis so that they may be mistaken for a spark or fire. If you have lost anything at your seat inform the usher.

Never smoke in any theatre or gathering unless it is permitted and then only where it is allowed.

Do not stand in or block the aisles that are used for exits.

Never shout "Fire" in any theatre or public gathering. The results are extremely dangerous. Anyone doing this without any real cause should be severely punished. If you should detect the presence of a fire or smell smoke, leave your seat and quietly contact the manager or usher and acquaint him with your discovery as soon as possible. He can then take the proper proceedings to investigate the matter and start an orderly exidous of the gathering if necessary. This alone is one of the most important reasons for quiet and correct discipline at all public gatherings so that should any mishap arise everyone can hear the instructions and follow them with the least possible delay, thus saving life and avoiding unnecessary injuries.

Consider the other people. They too have the right to live and enjoy life. The prevention of fires and disasters are as important as the extinguishment of the fires and the doctoring of the injured. Correct discipline on your part may save your life

According to police, Bonnevie, operator of the automobile, was attempting to pass another car on the dangerously sharp curve and lost control of his machine

and lost control of his machine.
It was just two weeks ago at
the request of Sgt. Dowling, that
this department issued a warning to motorists of traffic hazards, due to increased automobile traffic. Newton has led in bile traffic. Newton has led in safety records for many years because of traffic warnings and strict enforcement of the traffic rules. It begins to appear that the Police Traffic Bureau intends

to get a bit stricter, from appearances up there, because of the increasing accident rate.

The odds, at this writing, are about 9 to 5 that a fast ride through Newton will result in an even faster trip up to the Court House in West Newton.

# How to "Pay by Check" Without a Bank Account

Yes it's true! Anyone can use our Register Check service and enjoy the convenience and economy of paying bills this modern way. There's no formality involved: Register Checks are made out and signed by you. Simply fill in the amount you wish, then take your check to the bank teller to complete. You retain the stub for your records. The whole transaction takes but a minute - saves you time and trouble.

At slight additional expense you may have your name printed on each check. For remittances not exceeding ten dollars you may want to use the new postal notes, unless-like many people-you prefer the prestige of signing your own checks. For all larger amounts our register checks cost less than postal money orders.

Next time you have bills to pay or money to send, use personal, businesslike Register Checks!

Grace V. Weinz, secrehour, with his humorous stories Nackley and Parker, promise a day of fun, frolic, and feasting.

An afternoon of tennis, swimball, during the club's luncheon of tennis, swim-boating, and at the YMCA, last Wednesday Cabot Street. Mrs. Hans H. Bernt,

left for his home in Pitsburgh—
no one at Manhattan being aware of any reason that would cause such a sudden departure.
Kopf neded him on the team, so about a week later, the young Italian boy was surprised to see Coach Kopf walking toward the front door of the old Pittsburgh homestead. Introduced to the boy's parents, he explained the reason for his visit and the boy's oportunities at Manhatan. He returned to Manhattan with the youngster, whose ears were still ringing with his father's admonition not to return home again that the strength of the part of the part of the part of the strength of the part of the part

Popf told the story, he said, so's the layman would know that a. football coach does much of his work off the playing field.
His best story, however, one, incidentally, that has nothing to do with football, had to do with an magicfan, traveling with an entertainment group, via transport, during the war. On their way overseas to entertain the boys, it was the custom of the show people to entertain those on board every evening. . The ship's passengers loved the magician's act. Really clever, he ship's passengers loved the magician's act. Really clever, he surely did mystify them. An actor, naturally he was happy, until a sailor began to appear on the scene, nightly, with a parort Hoscott Scout Reservation, capperched on his shoulder. The parrot made the magician Chairman of the Ship Committee. the applause subsided, the parrot would loudly snarl "LOUSY!"
The magnician, one evening, planned to perform his very best will be a directors meeting next

# **OUTWEARS** PREWAR TIRES!

We're not suggesting that you pitch a teepee on our doorstep. But we know how much you, like so many other car owners, want B. F. Goodrich Silvertowns on your car, and we know why. Because you have heard that:

The new, better synthetic rubber developed by B. F. Goodrich makes Silvertowns run cooler, wear longer than prewar tires.

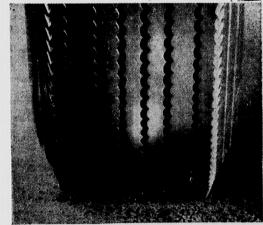

2. The 35% stronger tire body is made possible by a new, stronger cord, more cords per inch in the top ply, and an extra shock-absorbing breaker strip.

The new wider, flatter "road level" tread puts more rubber on the road to share the wear and provide quicker stops, better traction, and more safety on the turns.

More than 2,000 tests and 17,000,000 miles of the toughest kind of actual road service developed that the new B. F. Goodrich Silvertown outwears prewar natural rubber tires.
